## WORK & LEADERSHIP EXPERIENCE

### Pariveda Solutions

Dallas, Texas

*Consultant / Full Stack Software Developer*

January 2018 – Current

- Served as development Technical Lead which requires a holistic conceptual and technical understanding of an application’s various parts and how they work together as a whole. In addition, a technical lead must identify and implement best practices and mentor other developers by facilitating their work and investing in their growth.
- As a Innovation Circle Member and Thought Leader I actively pursued innovation by leading monthly brain storming Lunch meetings and the process of taking an improvement or project idea from inception to production. This process includes stages of idea generation, idea refinement, idea client socialization, planning, technical implementation, and deployment to production.
- Quality Assurance Team lead contributing to the integration of Behavior Driven Development Testing and introducing onboarding team members to BDD methodologies, best practices, and tools.

### Flair Data Systems

Plano, Texas

*Product Development Intern*

July 2017 – August 2107

- Developed two separate IoT projects using a stack of Raspberry Pi single board computers and the Hadoop and Docker frameworks. Projects included full stack development using Angular 2, Express API, MongoDB, and various other technologies.
- Wrote software development documentation, labs, and user guides for projects and services.

### Baylor i5 China Program

Beijing/Shanghai/Ningbo, China

*Management Consulting Intern, Rockbridge Senior Living Communities*

July 2015 – August 2015

- Communicated and collaborated with a multi-national team to evaluate the senior care industry in China.
- Developed a training plan for caregivers and senior care administrators for the company’s expansion into China.
- Forecasted revenue projections over the course of five years:
  - Industry / Market Analysis - examined and provided a scaled solution for China’s growing need for senior care and senior care infrastructure.
  - Provided a specialized solution for Rockbridge’s Chinese partner, Love for Life, as an entry opportunity into the Chinese market.
  - Strategies were presented to Rockbridge and Love for Life through a complete written business plan and a formal presentation.
- Led team presentation of Rockbridge’s service of hiring, training, and maintaining a world class senior care staff that was presented to the Rockbridge’s CEO and other venture capitalists.

### Crickets Draft House and Grill

Waco, Texas

*Waiter / Bartender*

June 2016 – September 2016

- Worked in a fast-paced environment with no prior experience.
- Strengthened multi-tasking skills, interpersonal communication, time management skills and teamwork abilities.
